

		Utility Vacuum Applications	 GVS/C	 GHS VSD+	 DHS VSD+	 DSS	 DZS/M VSD+	 LRP VSD+
 Preserving & packaging	Fresh meat and fish vacuum packing		●	●	●			
	Dry product packing e.g. coffee			●	○	○	○	
 Forming & shaping	Thermoforming e.g. bathtubs	●	●	○				
	Vacuum bagging			●	●			
	Glass bottle production			●				
 Holding & lifting	Aluminium cans		●					
	Microchip pick & place	○	●			●		
	Consumer product pick & place	○	●	○	○	●		
	Handling delicate foods / tobacco		●	●		○		
	Paper converting & printing		○			●		
	Corrugated card production			●	●			
	CNC holding for wood & stone		○			●	○	
 Evacuation & creating clean environments	Altitude simulation		●					
	University & laboratory vacuum	○	○	○	●	●		
	Medical / hospital vacuum	●		○		○		
 Moving & conveying	Meat & chicken evisceration		○			○	●	
	Wet and moist food conveying			○	○	○	●	
	Construction site dewatering					●	●	
	Bottle filling			○		○	●	
 Degassing	Brick and tile manufacture	●	●					○
	Plastic extrusion		●	○		○	●	
	Pasta degassing		●	○			●	
	Rubber tire & belt vulcanisation					○	●	
	Polystyrene moulding (EPS)						●	
 Evaporation Cooling & filtering	Manufactured parts cleaning & drying		○	●	●			○
	Salad & vegetable cooling		○	●	●			○
	Juice & pulp filtration					○	●	
	Cheese dewatering			○		●	●	
	Sugar production / refining						●	
	Milk drying						●	
	Freeze drying			●	●			

Preferred Technology ●

Optional Technology ○
